

National Vocational Certificate in Clothing Production (Level 3) (Industrial)
--

level of qualification: 3

	Compulsory	Elective
level 3 credits available	40	-
minimum totals required	40	-

registration date: 15 November 2007

scheduled review date: 2012

body responsible for the qualification: Project Management Unit - Namibia Training Authority

other bodies whose unit standards are included in the qualification: None

1 purpose

This qualification recognises people who have the competencies required for performing clothing production tasks in an industrial clothing production environment. It is awarded to people who have demonstrated the skills and knowledge required to perform cutting, sewing and pressing operations on advanced garments using industrial equipment; manipulate, construct and grade advanced pattern blocks; develop innovative ideas in a clothing production environment; and control production in a clothing production environment.

This qualification is designed to be accessible and flexible. The entry requirement is the National Vocational Certificate in Clothing Production (Level 2) (Industrial) or equivalent.

The main focus is on the outcomes of this qualification, not the how, when and where learning occurred. Some people applying to do this qualification may currently be competent in one or more of the unit standards and should then be given the opportunity to apply for recognition of prior learning.

This qualification leads to the National Vocational Certificate in Clothing Production (Level 4) (Industrial).

2 regulations for the qualification

2.1 summary of qualification requirements

This qualification will be awarded to people who are credited with 40 credits and have met the requirements of the compulsory sections.
