

and national assessment arrangements are available on the Namibia Training Authority website www.nta.com.na.

Elements and Performance Criteria

Element 1: Use and maintain specialised instrumentation measuring equipment

Range

Specialised instrumentation measuring equipment includes but not limited to Multimeter, oscilloscope, fibre optic tester,

Performance Criteria

- 1.1 Equipment for measuring voltage, current, resistance, frequency, temperature and continuity are identified.
- 1.2 Functionality and measuring range of variable is demonstrated and applied.
- 1.3 Caring and maintenance of measuring equipment are applied according to manufacturer's specification.
- 1.4 Measuring equipment are stored according to organisational procedures.
- 1.5 Inspection of measuring equipment is carried out according to manufacturer's specification and organisational procedures
